The performance percentages shown are net to the investor and represent the performance after the subtraction of all annual asset-based fees and expenses (the "Gross Expense Ratio"). Investments in SMART529 are subject to various fees, which will then reduce the value of your account as they are incurred. Please see the Offering Statement for specific details.

**PAST PERFORMANCE IS NOT INDICATIVE OF FUTURE RESULTS.** Current performance may be lower or higher than the performance data quoted.

The investment return and principal value of an investment will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than the performance quoted. For performance current to the most recent month ended, please call (866) 574-3542.

<sup>2</sup>Year-to-date (YTD) performance is actual—not annualized—and is stated on a calendar year basis.

<sup>1</sup>The Gross operating expense ratios shown are before management fee waivers or expense caps. Performance information may reflect historical or current expense waivers or reimbursements, without which, performance would have been lower. For more information on fee waivers and/or expense reimbursements, please see the expense table in the Offering Statement.

\*Standardized returns are as of quarter end.

# The Hartford® SMART529®

Offered by the West Virginia College Prepaid Tuition and Savings Program Board of Trustees

- <sup>1</sup> Investments in foreign securities may involve different and additional risks associated with foreign currencies, investment disclosure, accounting, securities regulation, commissions, taxes, political or social instability, war, or expropriation.
- <sup>2</sup> Emerging markets may involve similar but greater risks than foreign investing due to smaller size and lesser liquidity.
- <sup>3</sup> The Fund may invest in small and mid-cap companies. Small-company, and to a lesser extent, mid-cap investing involves higher risks than large-company investing.
- <sup>4</sup> A portion of the Fund may be invested in foreign securities, and subject to the associated risks. Please see a prospectus for the current percentage.
- <sup>5</sup> The Fund uses a value style of investing. Overlooked or otherwise undervalued securities entail a significant risk of never attaining their potential value.
- <sup>6</sup> The Fund uses a growth style of investing. Growth stocks may be more volatile than other stocks based on changing investor perceptions of an issuer's growth potential.
- <sup>7</sup> High-yield securities, or "junk bonds," are rated lower than investment-grade bonds because there is a greater possibility that the issuer may be unable to make interest and principal payments on those securities.
- <sup>8</sup> The Fund is subject to both credit and interest-rate risk. The Fund's share price and yield will be affected by interest rate movements, with bond prices generally moving in the opposite direction from interest rates. Credit risk refers to the bond issuers ability to make timely payments of principal and interest.
- <sup>9</sup> Bank loans are subject to the risk of nonpayment of principal or interest. Substantial increases in interest rates may cause an increase in loan defaults. Although the loans may be fully collateralized at the time of acquisition, the collateral may decline in value, be relatively illiquid, or lose all or substantially all of its value subsequent to investment. In addition, many loans are relatively illiquid and may be difficult to value, which may have an adverse impact on the fund.
- <sup>10</sup> The Fund is subject to interest-rate risk, which is the risk that when interest rates rise bond prices may fall. Additionally, the Fund is subject to income risk, which is the potential for a decline in the Fund's income due to falling interest rates.
- <sup>11</sup> The Fund may invest up to 35% of its assets in foreign issuers and/or non-dollar securities. Investing in foreign issuers and non-dollar securities may involve different and additional risks associated with foreign currencies, investment disclosure, accounting, securities regulation, commissions, taxes, political or social instability, war or expropriation.
- <sup>12</sup> As this Fund focuses its investment in relatively fewer securities, the fund may be subject to greater risks due to the larger positions taken in each security.
- <sup>13</sup> The Fund may invest in mortgage-backed and asset-backed securities, which are subject interest rate risk, credit risk, extension risk, prepayment risk and the risk of default by the holders of the mortgages or other obligations underlying the securities.
- <sup>14</sup> The price of an inflation-protected debt security can decrease when real interest rates increase, and can increase when real interest rates decrease. Interest payments on inflation-protected debt securities will fluctuate as the principal and/or interest is adjusted for inflation and can be unpredictable. Any increase in the principal amount of an inflation-protected debt security will be considered taxable ordinary income, even though investors do not receive their principal until maturity.

- <sup>15</sup> Midcap stocks generally have higher risk characteristics than large cap stocks.
- <sup>16</sup> Small-company investing involves specific risks not necessarily encountered in large-company investing, such as increased volatility.
- <sup>17</sup> As an asset allocation Fund that has set limits on the amount of assets it may invest in any one asset class, the Fund has less flexibility in its investment strategy than non-allocation funds.
- <sup>18</sup> Effective July 31, 2009, The Hartford Stock 529 Fund was replaced by The Hartford Equity Income 529 Fund, The Hartford Advisers 529 Fund was replaced by The SMART 529 Checks and Balances Portfolio, The Hartford Value Opportunities 529 Fund was replaced by The Hartford Value 529 Fund, and The Hartford International Growth 529 Fund was replaced by The Hartford International Opportunities 529 Fund.

If you reside in or have taxable income in a state other than West Virginia, you should consider whether your state has a qualified tuition program that offers favorable state income tax or other benefits exclusive to your state's program that are not available under The Hartford® SMART529® program. Taxpayers and residents of other states who are interested in exploring such tax consequences should consult with a qualified tax advisor.

**You should carefully consider the investment objectives, risks, charges, and expenses of The Hartford® SMART529® and its Underlying Funds before investing. This and other information can be found in the Offering Statement for The Hartford® SMART529® and the prospectuses or other disclosure documents for the Underlying Funds, which can be obtained from your investment representative, by calling 866-574-3542 or by visiting [www.hartfordinvestor.com](http://www.hartfordinvestor.com). Please read them carefully before you invest or send money. The Hartford® SMART529® is distributed by Hartford Securities Distribution Company, Inc. Member SIPC.**

Investments in The Hartford® SMART529® are not guaranteed or insured by the State of West Virginia, the Board of Trustees of the West Virginia College Prepaid Tuition and Savings Program, the West Virginia State Treasurer's Office, Hartford Life Insurance Company, The Hartford Financial Services Group, the investment sub-advisors for the Underlying Funds or any depository institution and are subject to investment risks, including the loss of the principal amount invested.
